## Customer Description

AdvantaChart offers innovative solutions aimed at small to mid-sized practices throughout the US, through the use of EMR systems for Pediatrics and internal medicine. They operate in Kentucky, USA and supply their medical software throughout North America.

## Business Need

AdvantaChart were in the process of upgrading their system, to include an exporting module, to allow their clients to export and migrate their accumulated data in an easy way. They required assistance with the development of this added functionality for their EMR and practice management system, exporting files in TIFF, RTF and PDF formats, and for file format conversions.

## Solution Offered

With over 6 years industry experience developing software for the medical industry. Intechno provided Advantachart with the required development assistance. Our experienced developers were able to complete the file conversion and data exporting extension to their EMR system, offering a flexible and tightly controlled project management process, ensuring our deadlines were met and our delivered code solution was what Advantachart required.

The main features that were worked on this project were

- File exporting for Crystal Reports in TIFF, RTF and PDF formats
- File conversion and merging for PDF and TIFF files.
- Allscript data exporting system.

## Technology Used

- VB .Net SQL Server Stored Procedure
- TIFF, RTF, PDF exporting
- PDFTK
- Crystal Reports

## Benefits to Customer

- With our years of experience in the Medical software industry, we were able to quickly pick up Advantachart development and provide efficient development work, meeting all of the deadlines and ensuring the quality of our work.
- AdvantaChart have been very impressed with our working attitude, flexibility and the development expertise of our team. And by providing almost daily follow-ups, we managed to ensure the project was controlled professionally and deadlines were met.
