## Customer Description

Acrendo offer comprehensive solutions to small and medium size medical practices for managing electronic records, billing, document imaging, electronic claims, paperless scheduling and voice dictation. They operate out of San Diego, USA and supply their medical software throughout north America.

## Business Need

Acrendo were upgrading their software system A.IMed to version 9, which involved a new upgraded UI, and development work in VB .Net.

Acrendo required assistance with the development of their system upgrade and outsourced development on a number of large modules to Intechno, including, Billing, Reporting, Labs and EMR.

Acrendo required that our developers use a company specific development software, Devexpress and Infragistics, which our developers learned and used for the development of A.IMed 9.0.

## Solution Offered

With over 6 years industry experience developing software for the medical industry, Intechno provided Acrendo with the required development assistance. Our experienced developers were able to complete any task assigned by Acrendo and we offered a flexible and tightly controlled project management process, ensuring our deadlines were met and our delivered code solution was always what Acrendo required.

Some of the major modules and features we worked on, included

- Charge Entry, redesigning the UI, ensuring the logic and processes were linking and working correctly
- Payment Entry, redesigning the UI, ensuring the logic and processes were linking and working correctly
- Reporting Engine, integrating DevExpress print controls and custom designing the report layouts for all reports.
- Lab Integration, integration with existing lab systems into the A.I.Med 9.0

## Technology Used

- VB .Net
- SQL Server
- Stored Procedure
- HL7, ICD, CPT, DICOM
- DevExpress
- Infragistics

## Benefits to Customer

- With our years of experience in the Medical software industry, we were able to quickly pick up the Acrendo development and provide efficient development work, meeting all of the deadlines and ensuring the quality of our work.
- Acrendo have been very impressed with our working attitude, flexibility and the development expertise of our team. We provided weekly software updates and held weekly project progress meetings via online conferencing. Ensuring the project was controlled professionally and deadlines were met.
